About the Prospect Program:

This program is designed for those who meet the criteria above. We assume a certain level of knowledge and competence. This program is conducted as a “Training Camp,” with very demanding on ice and off ice activity... “less talk, less group instruction, and much more work”. It provides a group of high-end goalies from all over North America, the chance to work together, exchange ideas, become friends, and to interact with, and be coached by Mitch Korn, a 19 year NHL coach. This is a “day program”. No housing is provided. Many hotel options exist. We will share names, addresses, phone of all enrolled, in May, to allow participants to work together on travel, hotel, etc. This has worked well in the past. The typical daily schedule is from approx. 8:45am - 5:30pm. Visit the “camp forms” section of our web site and print the “Prospects Final Information Sheet” for further information. An excellent staff of additional goalie coaches along with valuable guests in the equipment, nutrition, off-ice training, and sports psychology areas enhance the experience.
